

Eight Rules For Students, Teachers and Life

RULE ONE *General duties of a student: pull everything out of your teacher; pull everything out of your fellow students.*

RULE TWO *General duties of a teacher: pull everything out of your students.*

RULE THREE *Consider everything an experiment.*

RULE FOUR *Be self-disciplined: this means finding someone wise or smart and choosing to follow them. To be disciplined is to follow in a good way. To be self-disciplined is to follow in a better way.*

RULE FIVE *Nothing is a mistake. There's no win and no lose, there's only make.*

RULE SIX *Working hard is good. Working smart is better. Doing both is the path to excellence.*

RULE SEVEN *Don't try to create and analyze at the same time. They're different processes.*

RULE EIGHT *Be happy. Be curious. Be involved. Enjoy yourself. If you're not those things, change your life until you are.*

HINTS: *Be on time for life. Come or go to everything. Always go to classes. Read anything you can get your hands on. Look at movies carefully, often. Save everything—— it might come*

*in handy later. Learn constantly,
until your last breath.*
